

To do:

1. Open new POWERPOINT doc
2. Save as Mind Map Properties in your R082 folder
3. USE ONE SLIDE ONLY
4. Write this Title at the top:

Properties of Digital Graphics that could affect compatibility with intended purpose

5. Draw a mind map (like example)
6. Research as many properties as you can

MUST FINISH MIND MAP TODAY – Homework if not to be done by Thursdays lesson!

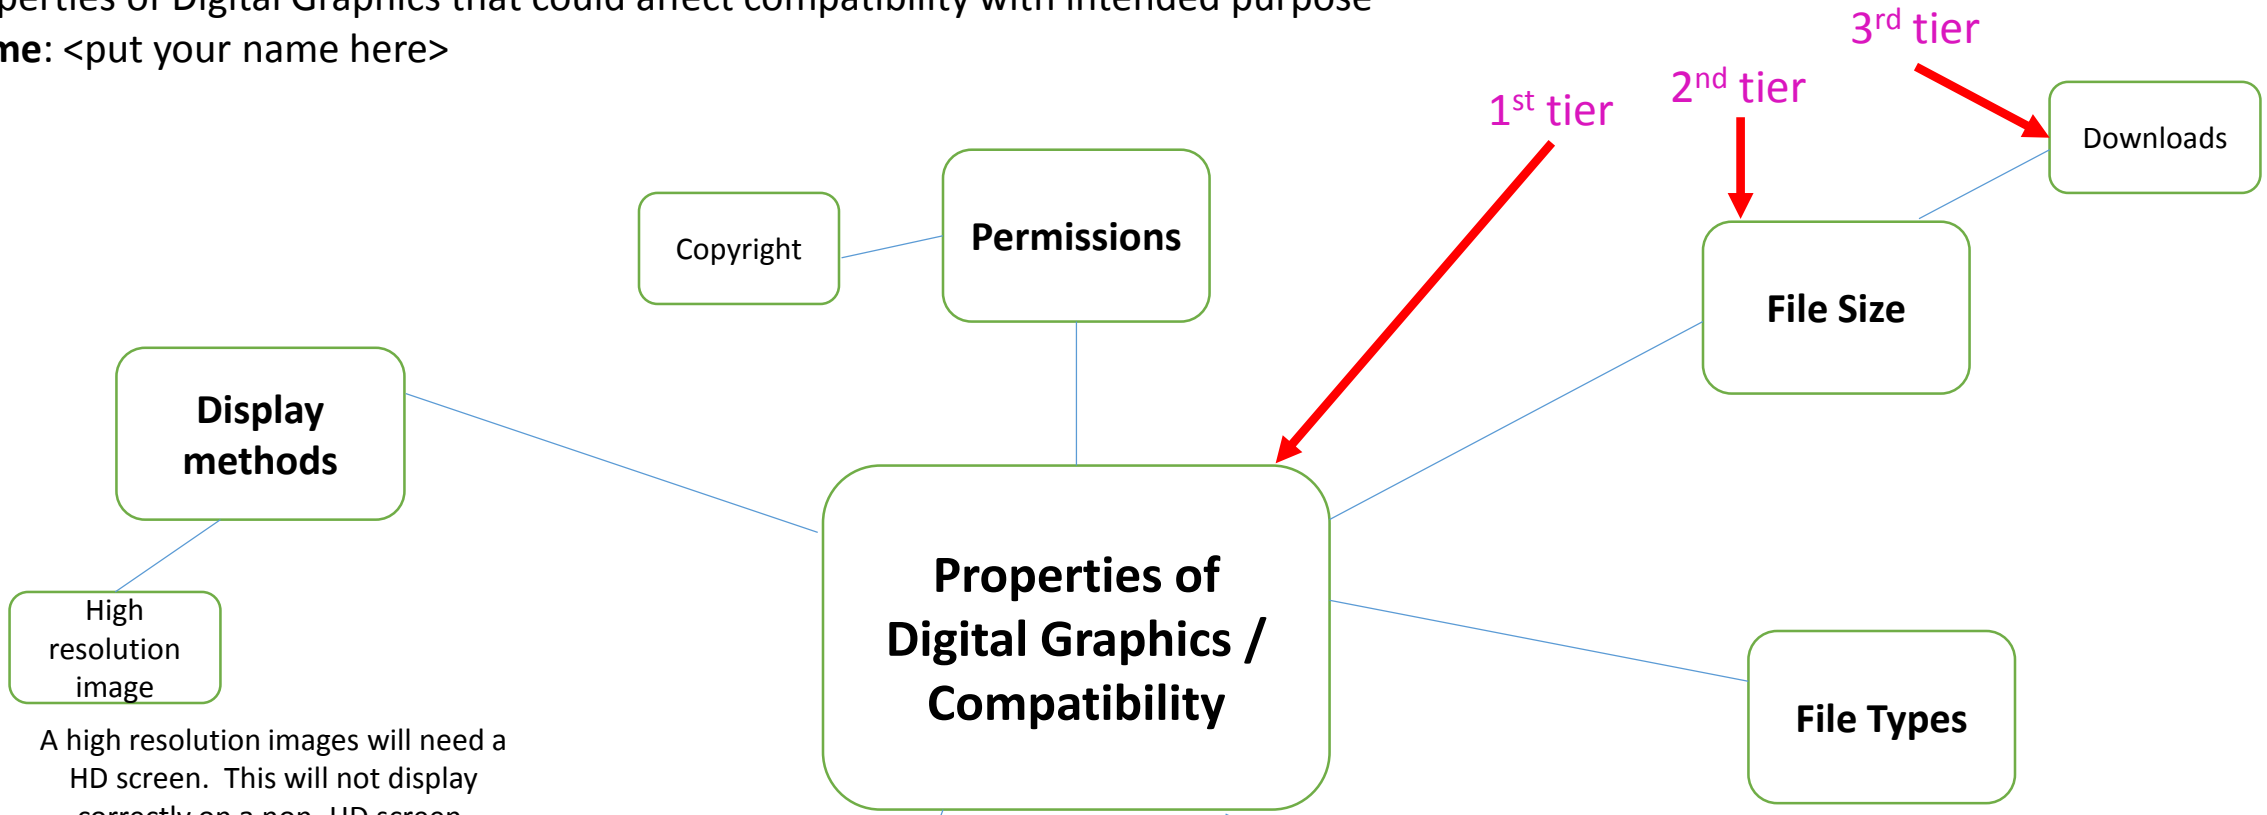

1. **PASS:** 5+ properties, 3 Tiers + statement
2. **MERIT:** 7+ properties, 3 Tiers + statement and example
3. **DISTINICTION:** 7+ properties 4 tiers + statement, example + justify

Then FINISH:

1. Sectors Doc
2. Purpose Doc
3. File Types Doc

Properties of Digital Graphics that could affect compatibility with intended purpose

Name: <put your name here>

A high resolution images will need a HD screen. This will not display correctly on a non- HD screen.

These examples give a sentence example, then a sentence to justify

A 20MB image needs a device type with good storage. If its an older device it will take longer to display!

1st tier
2nd tier
3rd tier

- 1. **PASS:** 5+ properties, 3 Tiers + statement
- 2. **MERIT:** 7+ properties, 3 Tiers + statement and example
- 3. **DISTINCTION:** 7+ properties 4 tiers + statement, example + justify
